- I designed Runway's venues and shows. I tried to use lighting design to express the texture of clothing.
 - I used different paper textures to make press kits and press gifts (pleats necklaces). I used transparent paper for the design of the press kit, so that the dreamier design corresponds to the theme of the runway "daydream". When designing press gifts, I tried using fabrics made from clothing to make this necklace.

2018-2019	40 Gradi Senior Branding Designer/ Art Director	Italy
	<ul style="list-style-type: none"> • I started my career as an art director as an art student in one of Rome's most historic boutiques. • During my tenure, I preserved the brand's cultural history from the boutique's first 18 years, while also creating window and store displays that reflected my avant-garde personal style. • During this time, I became more acquainted with Grunge and the glam rock style in Europe. This has a lasting impact on the rest of my artistic career. • This shop began to promote a huge number of avant-garde design labels such as Rick Owens, Carol Christian Poell, and others under my artistic direction.
